## Epics

**Admin-Privileges:** As an admin, I want to have privilege to make changes to all restaurants.

**Customer-Options:** As a customer, I should be able to look for a specific restaurant.

**Customer-Discover:** As a customer, I should be able to discover new restaurants.

*\*Admin is considered as a customer also. So that, admin account has the same user stories of customers with extra administration privileges.*

### Epic: Admin-Privileges

#### **Admin-Login-Story**

- As an admin, I should be able to login with administrator account, so that I can make permission required changes.

#### **Admin-Add-Restaurant-Story**

- As an admin, I want to add restaurants so that users can see more restaurants.
- As an admin I want to add restaurants so that small restaurants can make money.

#### **Admin-Delete-Restaurant-Story**

- As an admin, I should be able to delete restaurants so that users wouldn't see restaurants that don't exist anymore.
- As an admin, I want to delete restaurants in the case that restaurant owners violate the rules.

#### **Admin-Update-Restaurant-Story**

- As an admin I should be able to update restaurants in the case that restaurants change locations.
- As an admin, I want to update restaurants so that I can update the changed prices or location of a restaurant.

#### **Admin-Delete-Customer-Story**

- As an admin, I want to delete users and their all reviews so that I can prevent trolling and spamming.

### Epic: Customer-Options

#### **Customer-Login-Story**

- As a customer I should be able to login with email and password. So that I can use all options of the system.

#### **Customer-Search-Restaurants-Story**

- As a customer I should be able to search for a specific restaurant I'm looking for so that I can find it.

#### **Customer-Add-Review-Story**

- As a customer I want to add reviews so that other customers can have an opinion about the restaurants.

#### **Customer-View-Average-Story**

- As a customer I should be able to view the average score of a restaurant so that I can have a general opinion.

#### **Customer-Favorite-Restaurant-Story**

- As a customer I should be able to add restaurants to my favorites so that I can keep a list.

#### **Customer-View-Own-Reviews-Story**

- As a customer I should be able to get my old reviews on a restaurant so that I can remember my experience in that place.

#### **Customer-Vote-Review-Story**

- As a customer I should be able to vote reviews on a restaurant so that I can help useful reviews come to the front.

### Epic: Customer-Discover

### Customer-Search-by-Keyword-Story

- As a customer I should be able to search restaurants by keyword so that I can find restaurants related to my interests.

### Customer-Filter-Search-Results-Story

- As a customer I should be able to filter the search results by location so that I can find places that are close to me.

- As a customer I should be able to filter the search results by price range so that I may find places that I can afford.

### Customer-Subscribe-Location-Story

- As a customer I should be able to subscribe a location so that I can hear new restaurants in my area.

User 

Max Döner ★★★★★

Fatih ★★★★★

Place was good but foods were cold.

Furkan ★★★★★

I had no money, they gave me free food.

Ali ★★★★★

Nothing can be perfect.
